

FSD Project Board

Plasma Wall Interaction and Exhaust

The board is responsible for managing activities implemented under:

- **Work Package - Plasma Wall Interaction and Exhaust;**
- **Enabling Research projects (area of Materials).**

The Board will be responsible for the approval the Project Execution Plan including allocation of resources and any decision affecting the overall objectives (e.g. Grant Deliverables) or financial boundaries of the projects.

*Table 1: Beneficiary involvement in the Project Board categorised as **large**, **medium** and **small** following the involvement activities covered by the Board. **Active** indicates beneficiary representative to the Board meetings.*
