

TSVV1 “L-/H-transition and pedestal physics” – Regular Meeting

Virtual Meeting
April 11, 2022

This work has been carried out within the framework of the EUROfusion Consortium, funded by the European Union via the Euratom Research and Training Programme (Grant Agreement No 101052200 — EUROfusion). Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Commission. Neither the European Union nor the European Commission can be held responsible for them.

- E-TASC/EUROfusion updates:
 - Travel budget, Marconi allocation
- Short round-table with your feedback, e.g., regarding progress, problems, necessary infrastructure etc

- **Travel budget 2022:**
 - For TSVV-01 the limit is: 4.35 kEUR (3.8 kEUR of Consortium Contribution), i.e. about one in-person (/hybrid) meeting can be covered
 - Apply via <https://ims.euro-fusion.org/>
 - *Special cases:*
 - EPFL: All travels in 2022 must be covered by national funds. However, the national funding agency will rely on the budget allocation through IMS to reimburse our actual costs for trips. The approval will use a dedicated budget (not part of above limit), which will be nullified at the end of the year.
 - UKAEA: It is not yet clear whether travel costs can be claimed to EUROfusion at the end of 2022. Nonetheless, mission applications shall be assessed and approved on the equal basis to other beneficiaries. This means approval of the mission shall be done from the budget indicated to Principal investigators.

Marconi usage:

CPU partition A3: ~10% (should be ~12%)

GPU partition C1: ~10% (should be ~12%)

Please don't wait for the end of the cycle!
