

WP TE Task Force Meeting

WPTE Task Force News

Emmanuelle Tstirone and Nicola Vianello

On behalf of WP TE TFLs

E. Tstirone, N. Vianello, M. Baruzzo, A. Hakola, V. Igochine, D. Keeling, B. Labit

11st November 2025

This work has been carried out within the framework of the EUROfusion Consortium, funded by the European Union via the Euratom Research and Training Programme (Grant Agreement No 101052200 — EUROfusion). Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Commission. Neither the European Union nor the European Commission can be held responsible for them.

Machine Status

AUG

- Campaign complete - WPTE experiments expected to be restarted in April 2026

TCV

- Campaign ongoing – all expected sub-systems available

MAST-U

- Restart:
 - Issues with SFPS resolved, plasma commissioning to re-commence imminently
 - NBI conditioned up to 60/70kV respectively.

WEST

- Successful plasma restart last week, additional work ongoing to improve machine conditions (density control)

JET

- In shutdown/decommissioning

- GPM held last week, 4-6 November. Well participated, lively discussion, including the Session on JT-60SA. Slides available on INDICO <https://indico.euro-fusion.org/event/3646/>
- New pool of RTC selected, with few new names added
- Call for participation to WPTE out, **Deadline on 05/12**
- Interview for the DTFL selection held on the 10th of November. Nomination imminent pending GA approval in December
- Call for proposal for OP2 experiment issued by JT-60SA Experiment Team Leaders. **Deadline end of December.** Submission only by Experiment Team Members (see presentation by J. Garcia held at WPTE GPM and available on INDICO)
