# Tuesday 2 June

14:00

## Tuesday afternoon: Session 5

Session | Location: IPP Garching, L5-315, Zoom

14:00-14:15

**Modeling turbulent transport in the edge/SOL with a velocity-dependent diffusion operator using 2D gyrokinetic simulations**

**Speaker**

Jaime Caballero

14:45-15:00

**Separatrix boundary condition database**

**Speaker**

Daniel Told

15:30

16:00

## Tuesday afternoon: Session 6

Session | Location: IPP Garching, L5-315, Zoom

16:00-16:30

**Gyrokinetic plasma turbulence simulation with fluid neutrals**

**Speaker**

Sabine Ogier-Collin

16:35-17:05

**High-Performance Time Integration for Plasma and Neutrals Simulations in GENE-X**

**Speaker**

Ibrahim Almuslimani

17:10-17:30

**Studies of kinetic plasma-neutral interactions in the Gysela framework**

**Speaker**

Matthieu Protais

18:00

17:35-18:00

**Neutrals discussion**
