

Session Program

12 May 2026

**Special WP PWIE Meeting - PSI-27 talk
rehearsals**

Afternoon session

Tuesday 12 May

13:30

Afternoon session: Afternoon session Session

13:30-14:20

Cracking and local ageing of tungsten plasma facing components - does it matter?

Speaker

Alan Durif

14:20-15:00

Heat and impurity ion fluxes on the ITER first wall at high far SOL transport in ITER burning plasmas

Speaker

Srikanth Sureshkumar

15:00-15:25

3D numerical modeling of W erosion and migration in WEST plasma: impact of magnetic ripple on erosion patterns and core contamination

Speaker

Guido Ciraolo

15:30
