**30 September 2026 to 2 October 2026**

### **TSVV-B Annual Workshop 2026**

## **Edge plasma turbulence in stellarators (task 4)**

IPP Prague, U Slovanky 2525/1a, 182 00 Praha 8, Czechia, NHB-4-421, 4th floor

## Friday 2 October

09:00

### Edge plasma turbulence in stellarators (task 4)

**Session** | **Location:** IPP Prague, U Slovanky 2525/1a, 182 00 Praha 8, Czechia, NHB-4-421, 4th floor

#### 09:00–09:30 Update of stellarator modelling with GBS

**Speaker**

Zeno Tecchiolli

#### 09:30–10:00 Updates on modelling of 3D configurations with SOLEDGE3X

**Speaker**

Hugo Bufferand

#### 10:00–10:30

### Advances in 3D ripple tokamak simulations with SoEdge-HDG: isothermal modelling and preconditioner development toward anisothermal simulations

**Speaker**

Marcello Capasso

#### 10:30–11:00 Stellarator modelling with GRILLIX

**Speaker**

Christoph Pitzal
