Upcoming releases 2020-04-01

Dmitriy Yadykin

Outlook

- ETS 5:
  - release 5.7.0 is installed (Friday, March 30), e-mail is sent
  - small problem is found in the ets core routines afterwards, fixed this morning ('dirty fix')
  - next release is planned for the end of April, to be included:
    - new way of loading ets environment (ets module)
    - new transport code (Jorge)
    - regression test script
- ETS 6:
  - RC is constantly updated following the progress in the testing of ETS6 parts. Most recent release of the 'base' kepler is used:
    - kepler/2.5p4-3.1.0_dressed_3.25
  - next release will be built before we move to 3.27 DD version
